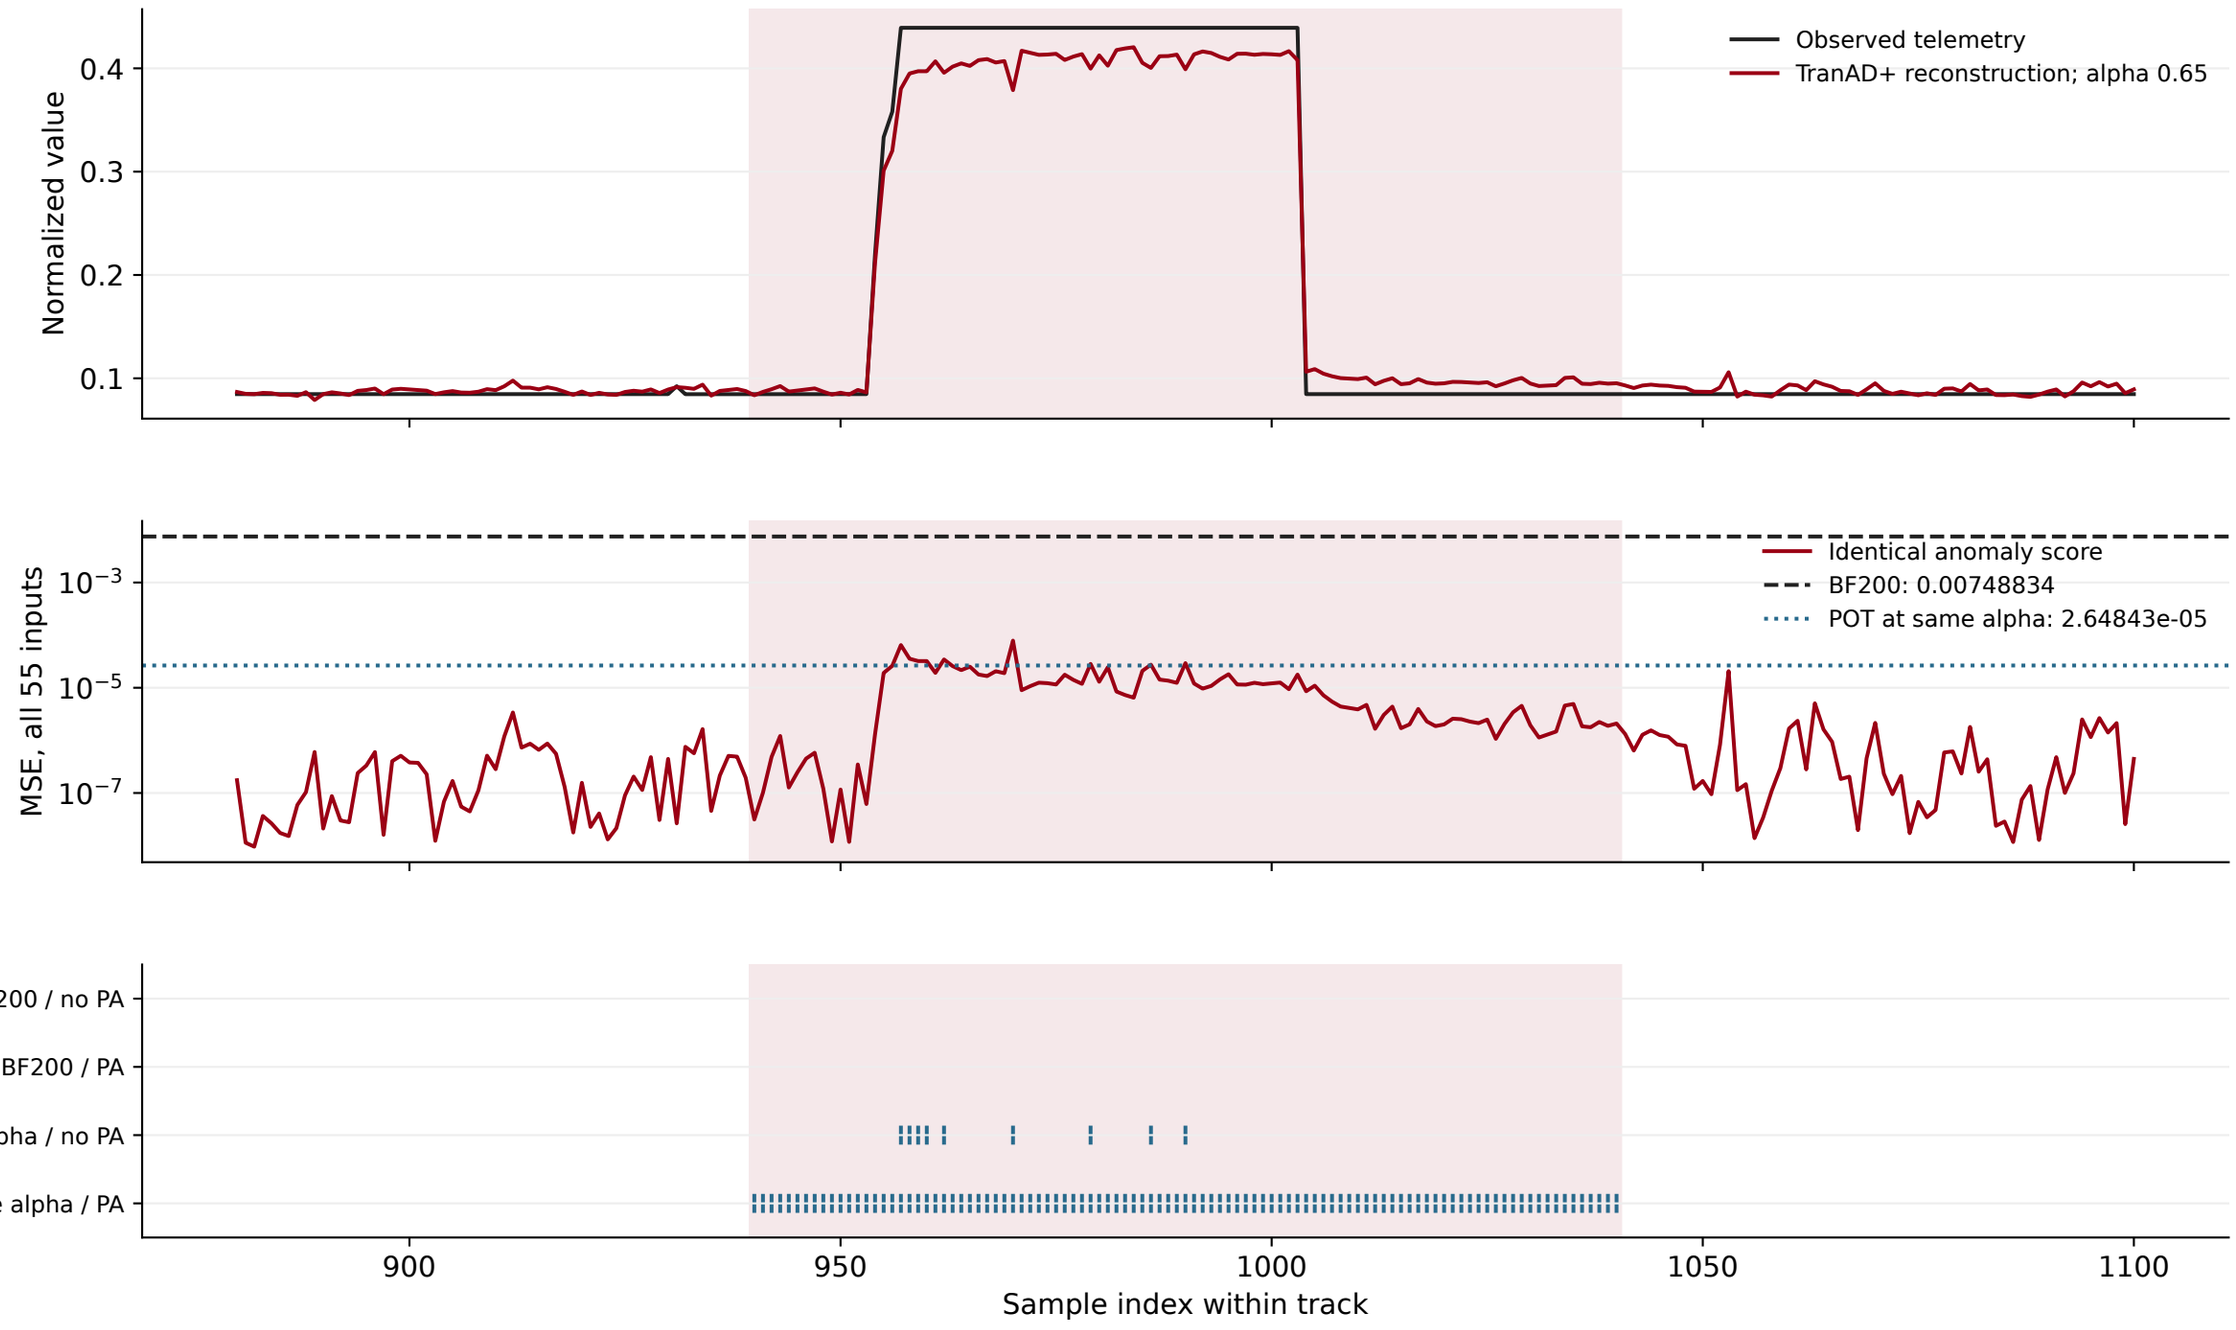
MSL / M-7: same model, same alpha, same score

Only the threshold changes. This control does not retrain or optimize another alpha.



Entire MSL test stream, alpha 0.65: PA F1 40.71% -> 84.97% | raw F1 5.74% -> 15.41%

Continuous-score ROC-AUC is unchanged: 61.00%. BF200 first grid step: 0.00748833.
